

# Wild Siskiyou Action / Kalmiopsis Earth First!

## Call to Action ::

Logging has begun in the Fiddler timber sale! This is the first logging of "protected" old growth reserves, and will soon be followed by logging on pristine roadless areas. In all 19,500 acres (30.41 sq. miles) of public National Forest is slated to be logged. This is 70,000 trucks of logs.

As of 3/9, twenty two people have been arrested in efforts to delay the logging. Within a few weeks, courts will be hearing lawsuits that are likely to shut down the logging. Between now and then only people putting their bodies on the line will save these ancient forests. Southern Oregon forest defenders are calling on allies who are able to gather at their ongoing campout near Selma, OR. If you or anyone you know can make it down there for a few days or a few weeks, it could make the difference between life and death for this ecosystem.

This is an inclusive and ongoing encampment ready to receive helpful people. All food is provided, and we may be able to help with warm clothes and camping gear.

Contact Siskiyou Wild Action and Kalmiopsis Earth First! at [siskiyou@cascadiarising.org](mailto:siskiyou@cascadiarising.org) or 541-659-2682 to get plugged in.

In Portland contact Cascadia Rising at 503 493 7495 for information, including carpools.
