He did NOT need to DIE!

On September 8, 2005, Mr. Kaady was involved in two auto accidents, possibly as a result of mechanical malfunction. His car, and subsequently Mr. Kaady, caught fire. At some point, he bailed from his car. When

Sandy Police and Clackamas County deputies arrived on the scene, he was seated alongside the road, bleeding, his clothes burned from his body. The officers could find no better way to assist him than to taser him several times, and when he attempted to flee the taser, they **SHOT AND KILLED HIM.**

We think there must be a better way.
