I'm trying to warn the Public about the make up of the Media, Post Coldwar and Pike/Church Committee Hearings of the mid 1970's to Today, in which Government Agencies including FBI, DEA, CIA have infiltrated newsrooms around the Country with felons and prostitutes, and includes Human Trafficking, Forced Indoctrination through "Hazing", Prostitution Services, and the Release of Felons from prison to assume position in Print and Broadcast Journalism as a means to censor and control news content in direct opposition to Constitutional Guarantees of a Free Press, and non-interference of government in Media Affairs.

This is the most egregious scandal in the United States history since the Civil War, and rectification cannot take place until the Public is duly notified to challenge the practice.

Informationally? How do I know?

In the late 1980's and early 1990's I spent a great deal of time with street prostitutes in the Sacramento Valley, and I pretty much left that life in 1995. Prostitutes that I frequented started showing up in significant numbers in the TV Newsrooms of Sacramento. I didn't really take notice to their introduction, as I was too busy trying to make a living as a freelance news stringer, selling video of breaking news events to all of the local TV Stations.

By the year 2000 I had become one of the most prominent news stringers in the Valley. In 2004, someone robbed my news car of all equipment be professional means to put me out of business. It took another 3 years to figure out why my life had gone so sideways. It was the fact that the TV Stations were being introduced to the newsrooms that I had previous contact with in the Sacramento sex industry.

Once, I began to piece the puzzle of the past together, I could tell that this was a very concerted effort to subvert the Media, and later connections included Entertainment and Politics. This "Hazing" Program includes: 2 U.S. Presidents, One First Lady, One Supreme Court Justice, Attorney General/Senator Kamala Harris, and over 150 other individuals exploited in the Sacramento Area.

This has been reported to all local Media Outlets and 17 National Security Agencies with no apparent move to correct the matter. The Media has been bombed with these Leaflets, along with the California State Capitol with no response, until the May 3rd bombing of Sacramento City and a Dinner Party located near the California State University Sacramento.

The purpose is to go to the Public directly to request that they demand answers and responsibility for the practices taking place in Sacramento without their knowledge. This broaches the violating of Voter Rights in Elections and the direct control and censorship of the Free Press by the government, and while I only have the story from the perspective of Sacramento, California, this a tyrannical control model that reaches from California to New York and beyond. Internationally.

So? ...This is the complaint.

The Media Marketing the Leaflets as "Nazi Propaganda and Racism" is False Rhetoric, but welcomed, as it quickly painted them as the lying, censorship organizations that they are in failing to provide the Public the truth.

Here is some jail mail from Kamala Harris AKA Carla Barros. I have jail correspondence from others who have traveled the same path. http://timetraveler2.zohosites.com/

Hello, I'm a reporter with BuzzFeed News, and I wanted to get in touch about the flyers you dropped on Friday over the Sacramento State event and near the Ariana Grande concert.

Any comment about why you did this, and why you chose those venues?
